THE MISSION OF WLT CONSULTING, LLC IS:

"To support and educate behavioral health systems, organizations and individuals to become recovery focused."

WHAT WE DO

WLT Consulting, LLC specializes in developing culturally competent systems; designing recovery-oriented behavioral health (mental health and drug use disorder) systems; evaluating behavioral health systems and programs; enhancing consumer operated services and peer support services; equipping and preparing peer support specialists; developing organizational leadership and reducing disparities/increasing consumerism in Health Care Reform.

EXPERT STAFF AND CONSULTANTS

WLT Consulting has recruited some of the best minds in the behavioral health field as consultants and staff. Our diverse staff brings a combined total of over 100 years of behavioral health administrative, clinical and professional experience. Our consultants have various educational and professional backgrounds, experiences, certifications and training. The staff and consultants represent peers, consumers, family members who have worked on the front lines and at the administrative/executive levels in Ohio and other states' behavioral health systems. Consult the website for a partial list of staff and consultants.
